Health Sciences Graduate Program
 College of Medicine
 University of Saskatchewan

It is the expectation of the College of Medicine and the Health Sciences Graduate Program that students enrolled in a full-time research program will receive a financial commitment from their supervisor in the form of a stipend. Any scholarships, awards, or bursaries received by the student can be used to offset the supervisor's responsibility; however, the guarantee of minimum funding must be provided. Any exceptions or deviations from this standard are subject to approval by the Assistant Dean of Graduate Studies.
